

12 banks Dino Light

12,000 Watt Molequartz "Moleeno"
Molepar is designed For lighting large areas. The high intensity output of this fixture permits a minimum number of units for the required lighting level. For Television and Film, use the 3200°K globes for night lighting and the Dichroic Filter globes for daylight booster. Each bank of four globes swivels for beam control. Twelve switches control each globe. Individual globes rotate 360° to orient oval beam pattern to horizontal or vertical configuration. Globes easily changed with snap rings.
