

TOP SECRET from EASYRIG

The STABIL G2 is our dampening upper arm designed to smooth out your shots while walking. The upgraded G2 version comes with a foldable upper arm, hanger & conical locking pin for locking the arm in 90°.

Works best with gimbals.

The Gimbal Rig vest is now upgraded with a ratchet belt buckle system called the EASYLOCK. It's durable, easy to use and improves the overall look and feel of the vest. Now your vest can be tightened with just one hand. With the EASYLOCK, the Gimbal Rig vest also holds tighter around your hips.

Older vests cannot be retrofitted with this upgrade.

The EASYTILT is a must-have accessory when working with gimbals. It allows you to tilt your gimbal with ease, making it possible to get that exact shot, whether it be straight down or straight up. The EASYTILT attaches to any 30mm diameter gimbal frame via (2) included spindles.

Designed and made in Sweden

Easyrig Vario 5

The EASYRIG VARIO 5 has an adjustable weight range from 5-17kg (11-38 lbs),
The EASYRIG VARIO 5 STRONG: weight range 10-25kg (22-55 lbs)
You can easily change the tension / power of the line.

The EASYRIG VARIO 5 gives you the same advantages as our other Easyrig models with the added benefit of being able to adjust the line tension to adapt to many different cameras and configurations. The EASYRIG VARIO 5 still delivers the same steady hand held shots while relieving strain on your back, neck and shoulders. The load is redistributed to the hips allowing you to shoot hand held in comfort for hours.

THE EASYRIG VARIO 5 can be ordered with several different vest options:

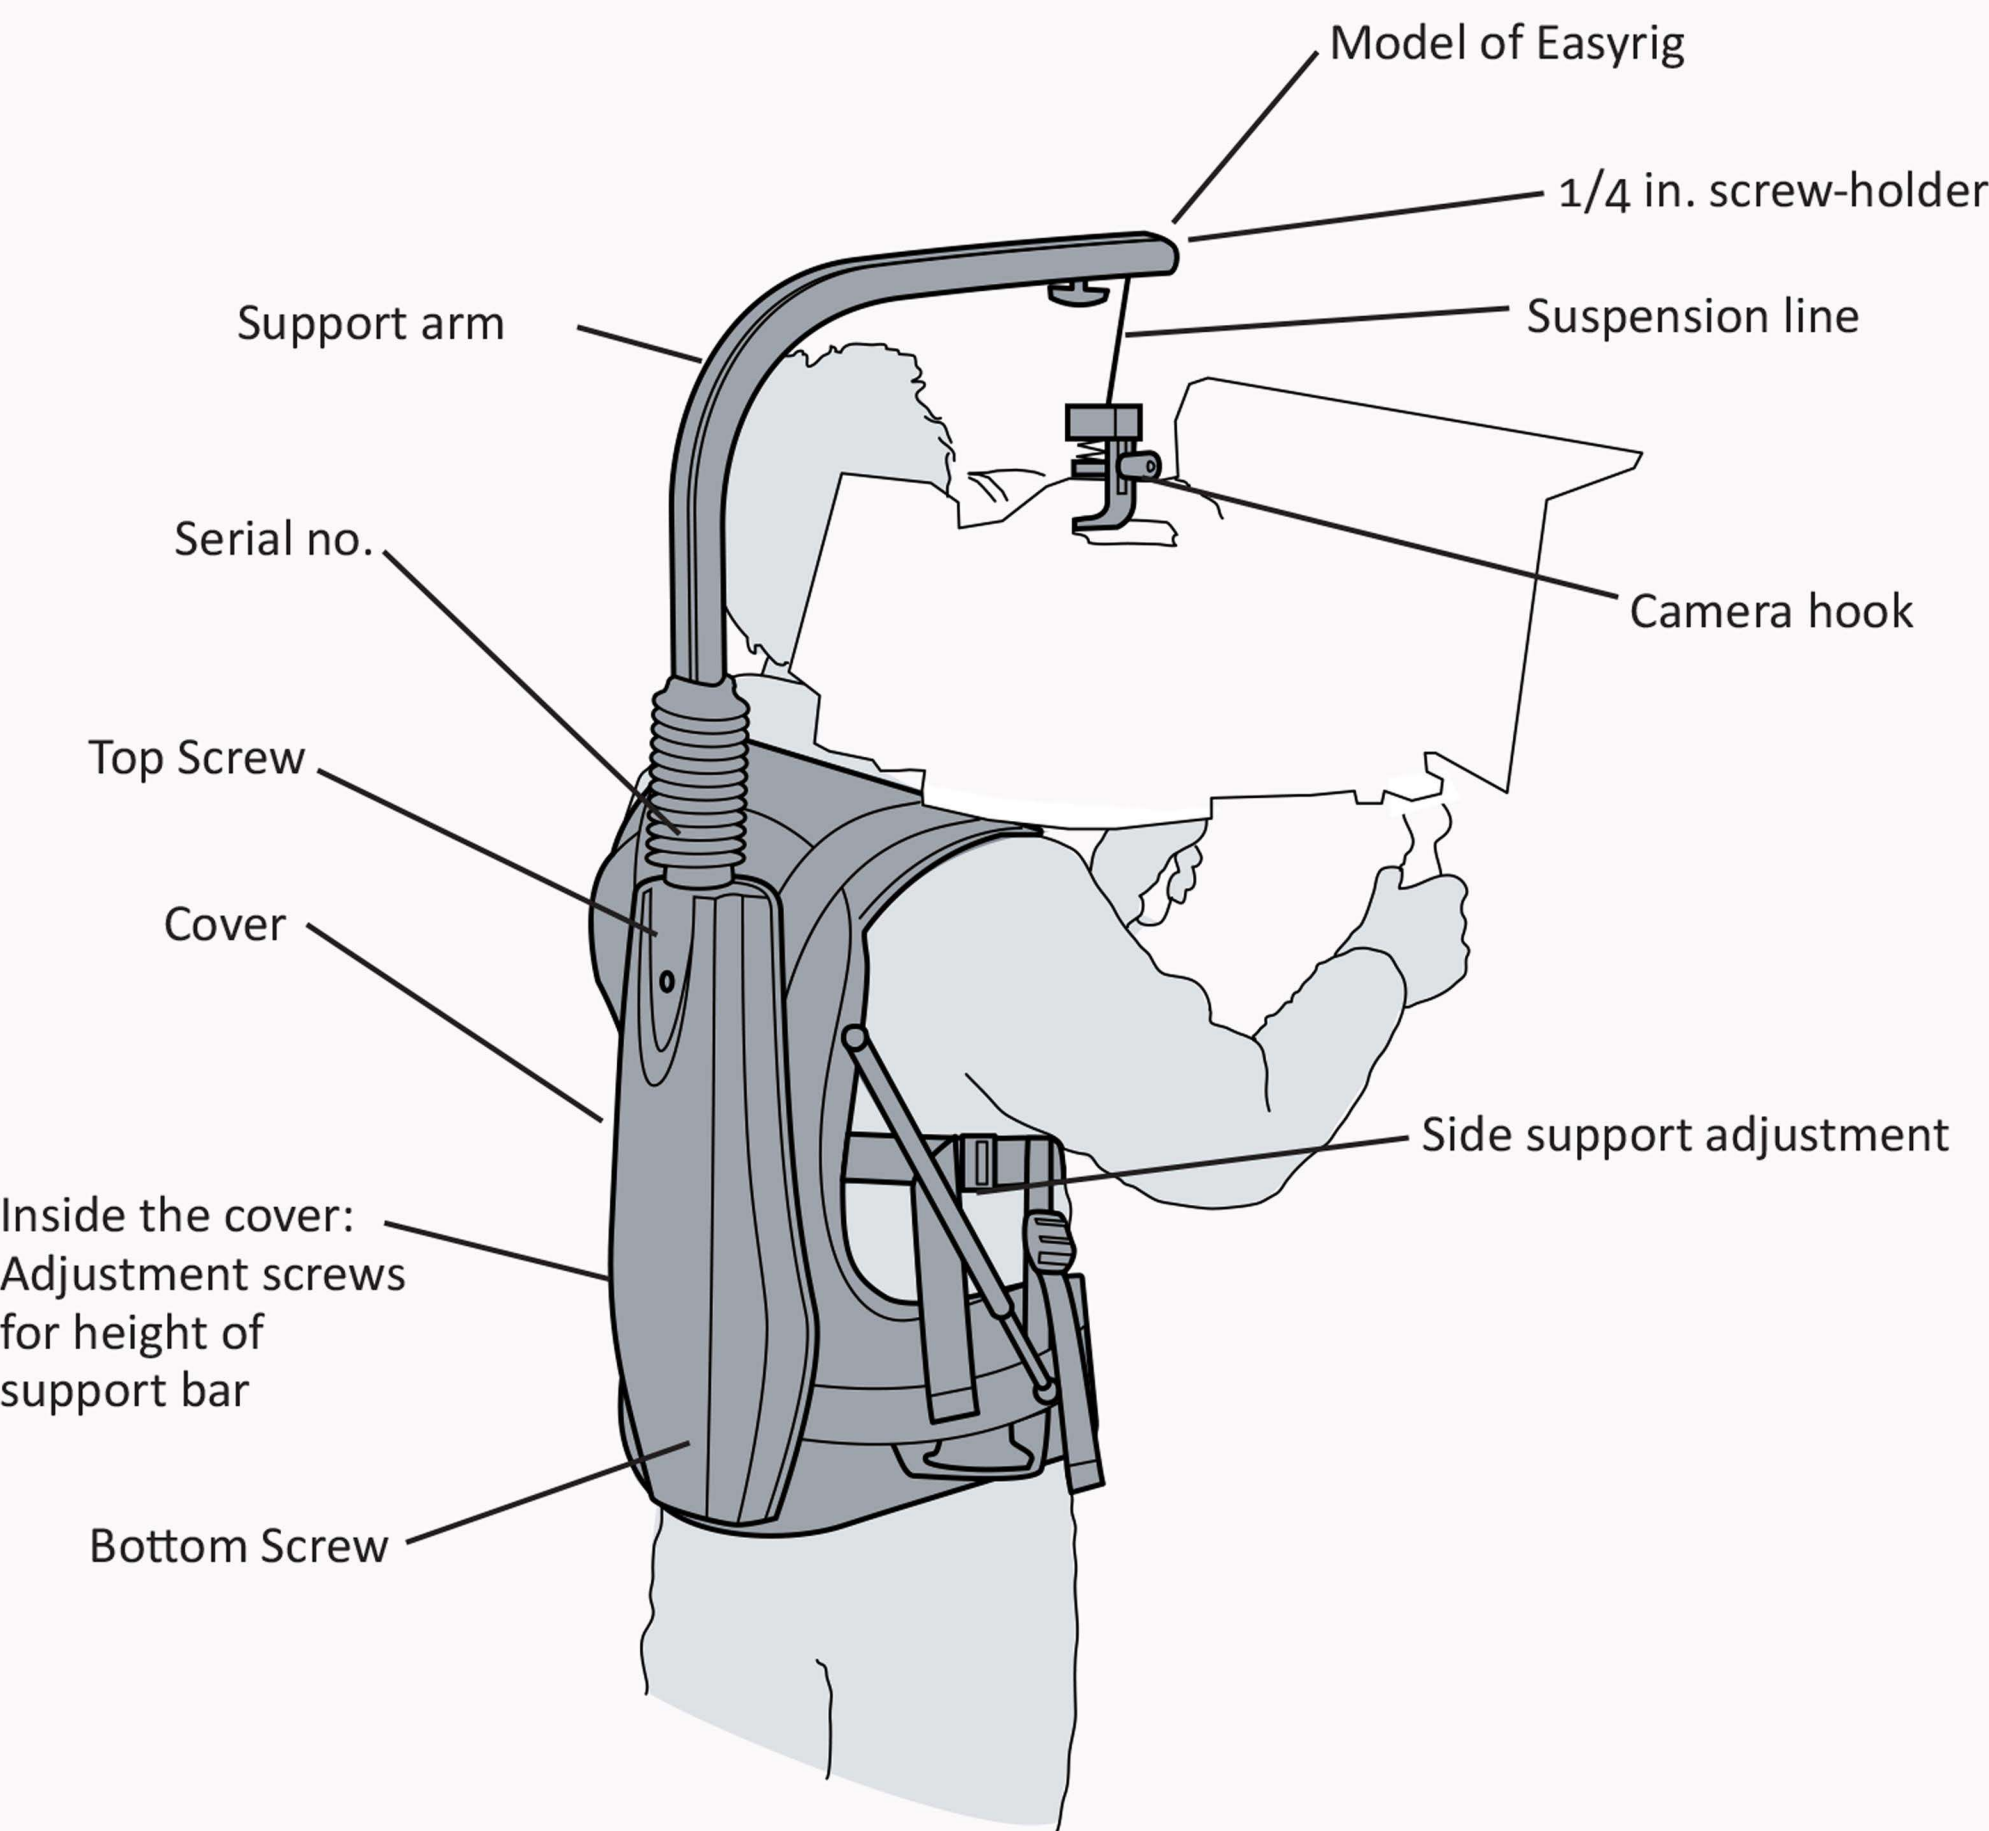

- Cinema vest
- Gimbal Rig vest
- Cinema Flex vest
- Gimbal Flex vest

You can also order your EASYRIG VARIO 5 with four different arm options:

- Standard arm
- 130 mm (5") adjustable arm
- 230 mm (9") adjustable arm
- STABIL adjustable arm 265 mm (10")
